

# ULTRASCALE-AWAY

## NON-HAZARDOUS DESCALER

The safe, effective  
Biodegradable, non-hazardous  
water side cleaning solution is here.

### ULTRASCALE-AWAY

UltraScale-away descaler is a liquid solvent designed to dissolve and eliminate water scale, lime and rust. This non-hazardous solution effectively and safely cleans your equipment, saves money, improves efficiency and can extend the life of boilers, valves, pumps, heat exchangers and other water operated equipment.

Fast acting Ultrascale-Away thoroughly cleans your equipment in a matter of hours. The easy-to-use pre-mixed solution can be handled by regular personnel, no specialized cleaning crew is necessary.

### Alternative to acid

Safe and effective without the health and safety risks associated with acids

### Effective

Dissolves approximately 2 pounds of lime per gallon

### Safe

Will not pit, oxidize or adversely affect iron, steel, stainless, copper, brass, plastic, rubber...

### Non-hazardous

Does not fall under any of the seven federally designated classes of hazardous waste

### Biodegradable

Can be disposed of through normal plant sewers

### Economical

A cost-effective cleaning solution that helps extend equipment life and increases efficiency
